Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34.

(2) BASIS OF PREPARATION AND THE ACCOUNTING POLICIES

BASIS OF PREPARATION

The accompanying interim condensed consolidated financial statements for the Group as of 30 September 2021 have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting".

The interim condensed consolidated financial statements have been presented in Jordanian Dinars "JD" which is the functional currency of the Group.

The financial statements are prepared under the historical cost convention except for financial assets at fair value through profit and loss and financial assets at fair value through other comprehensive income which have been measured at fair value at the financial statements date.

The interim condensed consolidated financial statements do not contain all information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standards and should be read in conjunction with the Group's annual financial statements as at 31 December 2020. In addition, the results for the nine months ended 30 September 2021 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2021.

BASIS OF CONSOLIDATION

The interim condensed consolidated financial statements comprise the financial statements of Jordan Investment Trust Company and its wholly owned subsidiaries. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary.

Group controls an investee only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee).
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit and loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses, profits and losses relating to transactions between members of the Group are eliminated.

JORDAN INVESTMENT TRUST COMPANY (PUBLIC SHAREHOLDING COMPANY)
NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
30 SEPTEMBER 2021 (UNAUDITED)

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary;
- Derecognises the carrying amount of any non-controlling interest;
- Derecognises the translation reserve of the foreign currencies
- Recognises the fair value of the consideration received;
- Recognises the fair value of any investment retained in the subsidiary;
- Recognises profit or loss resulting from controlling loss ; and
- Reclassifies the company's share of components previously recognised in other comprehensive income to profit or loss.

CHANGES IN ACCOUNTING POLICIES

The accounting policies used in the preparation of the interim condensed consolidated financial statements are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2020 except for the adoption of new standards effective as of 1 January 2021 shown below:

Interest Rate Benchmark Reform – Phase 2: Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16

The amendments provide temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR).

The amendments include the following practical expedients:

- A practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest
- Permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued
- Provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component

These amendments had no impact on the interim condensed consolidated financial statements of the Group.
