

Dear Reader,

During last week, there have been some rumors by the media that the Chairman of ARBK's Board of Directors, Mr. Sabih Masri, is in the process of purchasing the shares of Mr. Ziad Al-Manaseer, who currently owns 1.40% of the bank's 640 million total outstanding shares. The Chairman currently owns 4.53%. The bank's biggest shareholder is the Social Security Corporation with 16.00%, and the second biggest shareholder is Abd Al Hamid Shoman Foundation with 5.00% of the shares. The bank's major shareholders are comprised of various nationalities including, but not limited to, Qatari, Kuwaiti, Emirati, Bahraini, and Saudi Arabian, besides Jordanian.

It is worth mentioning that in the past Mr. Sabih Masri purchased the stake of Al-Hariri family in ARBK, which was then a large percentage of ARBK's outstanding shares.

As for the market as a whole, during last week the general index lost 14 points closing at 2,024 points on Thursday and at 2,018 points yesterday. Again, the index of all three sectors in the market continued to decline. ARBK dropped by 1.5% during the previous week from the week before, and yesterday it even dropped by 0.30% from Thursday, closing at JOD6.65.
