

Dear Sir/Madam,

Kindly find below is yet another update on the Arab Bank stock.

As observed from the graph below, ARBK's closing price has *resisted* going above JOD6.70 during the beginning of March.

However, during the past week ARBK began increasing steadily once again, day by day, closing at JOD6.90 with nearly 570,000 shares traded (JOD3.72 million in value) on Thursday, a huge spike in the number and value of shares traded, in comparison to the number and value of shares traded during early-mid March. Since March 6<sup>th</sup>, when the price of ARBK was JOD6.64, the stock's price has been on the rise. The biggest jump during last week in absolute terms was from Tuesday to Wednesday, from JOD6.73 to JOD6.83, respectively.

Today ARBK reached a high of JOD6.96 and closed at JOD6.93. This upward trend will probably continue, at least until the end of this week.
